## EXPERIENCE

**Breezeline**, Network Technician  
(March 2020 - Present)

Orchestrating seamless commercial fiber deployments and collaborating across teams showcases my prowess in navigating complex design processes. Supporting internal IT and telephony needs has honed my user-centric approach, crucial in UX/UI design. Troubleshooting network systems and ensuring bug-free software performance underscores my attention to detail. My experience in team-based network solutions design demonstrates systemic thinking essential in design contexts.

**ASE Telecom (University of Miami/Medical Campus)**, Network Technician  
(February 2017 - March 2020)

Maintaining and configuring network equipment reflects my meticulous approach—ideal for creating user-friendly interfaces. Collaborating with network engineers exemplifies my collaborative problem-solving, vital for cross-functional design projects. Analyzing technical issues, communicating system performance, and adapting to upgrades align well with user-centered design principles.

**Best IT Providers**, IT Field Technician  
(April 2016 - February 2017)

Troubleshooting hardware and software, installing OS, crafting network configurations, and delivering software solutions are testament to my technical problem-solving and adaptability essential for UX/UI design. My user-centric focus, understanding of diverse platforms, and commitment to safety are reflected directly in design practices. Translating technical concepts into user-friendly interfaces is another strength crucial in design.

## Education

**Workforce Institute**  
UX/UI Design Bootcamp  
Summer 2023 – Winter 2023

**Coder House**  
Adobe and Brand Identity  
Bootcamp  
Summer 2022 – Winter 2022

**Western Governors University**  
B.S. in Software Engineer  
Fall 2019 - Spring 2025

**CBT College**  
Associate of Science  
Network Administration  
Honors Program 4.0 GPA  
Spring 2015 – Spring 2017

## Toolbox

Figma  
Adobe Photoshop/Illustrator  
Adobe XD  
Google Workspace Microsoft  
office Suite

## Skills

User research and Interviews  
User Flows  
Information Architecture  
Interaction Design  
Wireframing and Prototyping  
A/B Testing  
Visual Design  
Cross-functional collaboration  
Basic Programming (HTML/CSS,  
JavaScript, Python)
